SOLAR MODULES (TEMPERED GLASS)

Item No.: 891 TGM500-12V
Product Name: 9 Watt, 500mA and 18 Volt

Description

We have over 100 solar modules with output ranging from 60mA to 7400mA for 6V, 12V and 24V

- Built with all weather and durable special high quality water-white low iron tempered glass
- Made by USA most advanced and high technology equipment for perfect quality
- New improvement coating material and adhesive material
- UV protection, all weather protection, moisture protection and corrosive protection
- A blocking diode is built in the circuit with the connecting cable wire to protect the battery against discharge at night time
- All solar modules are provided with battery clips for immediate and easy use
- Power (maximum): 9W
- Current (maximum) I_{sc} : 500mA
- Voltage v_{oc} : 18V
- Cell size: 34.3 x 51.5mm
- Cell in series: 36 pieces
- Panel size: 402 x 259 x 25mm
- Weight: 1.4kg
- Applications: TVs, recreational vehicles, radios, water pumps, car battery boosters, home systems, car chargers, ventilators, street lights and hi-way call boxes (phone box) etc.
